

Invitation to transdisciplinary summer school in Master of Architecture,
Architecture Typology and Urban Design at TU Berlin
,Collaborative design methods. Building communities through spatial
intervention'

As an invitation from TUB side for WP 4.1 I would like to offer the following collaborative workshop in the summer term of 2022 for 3 Master students at ENHANCE partner universities from the disciplines of Architecture, Urban Design, Urban Planning and Landscape Architecture. The workshop will be conducted in two phases, phase 1 (online) from 21 to 22th August and phase 2 from 9th to 16th September 2022 in Berlin. The summer school ,*Collaborative design methods. Building communities through spatial intervention'* <http://habitat-unit.de/en/teaching/sose-2022-summer-school-collaborative-design-methods/> is a transdisciplinary workshop coordinated by Dr. Juliana Canedo at Chair of habitat unit, TU Berlin. It is related to the course in the study programs Architecture, Architecture Typology and Urban Design at TU Berlin and is honoured with 3 ECTS. The students of the ENHANCE partner Universities will receive a TUB performance record.

The summer school is part of a cooperation of TU Berlin with the Universidade Federal do Rio de Janeiro, Brasil (UFRJ) and different collaborative research projects. Therefore, it also involves 15 master students from TU Berlin and 11 master and PhD students from the Federal University of Rio de Janeiro, Brazil. It is also a continuation of the Workshop series COLLOC Alumni Workshops (2019 – 2023) and 2018 Summer School in Brazil which implies the collaborative production of transformation knowledge as a transdisciplinary research approach. Beyond this background this summerschool aims to provide students with competencies in collaborative work practices as well as transdisciplinary methods and design-based to develop transformative knowledge for sustainable social problem solving.

Funding for ENHANCE students:

Master students from ENHANCE partner universities will be funded with a scholarship of 250 EUR for expenses during their stay and additionally up to 250 EUR for travel costs (documented costs).

Students with interest in linking the Master's thesis with the topic of the summer school can receive a funding of 750 EUR per month for a research stay between 1 and 3 months at TU Berlin with Dr. Juliana Canedo, depending on availability. Prerequisite is a supervisor of the Master's thesis at the home institution.

A funding is only possible if the student does not receive any additional funding from other institutions or scholarships.

Further information on funding: Laura Jacobs, TU Berlin, E-Mail: laura.jacobs@tu-berlin.de (ENHANCE TUB)

Application:

Further information and application form you'll find here: <http://habitat-unit.de/en/teaching/sose-2022-summer-school-collaborative-design-methods/>

The deadline for application will be 1st July 2022.

Contact: canedo@tu-berlin.de (Habitat Unit TUB), kathrin.wieck@tu-berlin.de (ENHANCE TUB), sibylle.groth@tu-berlin.de (ENHANCE TUB)

We look forward to your applications.

Best regards
Kathrin Wieck
