

Agora Development Summit

Project Presentation

edition 2027

Agora Development Summit is a university-led initiative organising an international conference with a very clear ambition: to turn Valencia into a **meeting point for a new generation of global talent.**

We select **young people with exceptional potential from various disciplines** and universities around the world, and bring them together with experts to address some of the dilemmas that will define our future.

ADS at a glance

50 participants

4-7 february 2027

+10 experts

València, Spain

Worldwide participants

Leader universities

An event organised by student leaders from UPV across various disciplines under the umbrella of Generación Espontánea, in collaboration with the Polytechnic University of Valencia, Ideas UPV and the South American Business Forum (SABF).

About ADS 2027

We want to talk about education, seeking to understand how a person is formed. The public debate has always centred on how to teach better.

ADS proposes asking first, **'what are we not teaching?'**

Main research axes:

1. What is worth teaching?
2. How do we learn best?
3. What kind of people are we training?
4. How do we want to live together?
5. What role should technology play?
6. How do we build a fair education?

What students we are looking for

Any field of study

Any branch of knowledge, from art to engineering or the sciences.

With motivation and enthusiasm

We are looking for active people who are keen to change the world.

De trajectòria destacada
