

#### Elective seminar 1

**title: Different aspects of color**

moderator: dr Radosław Jan Balcerzak

duration: 30 hours

Presentation of the main color problems, i.e. primary, secondary, monochrome and achromatic. The proposed painting tasks will be focused on analyzed topics. As part of the course, there is also the possibility of independent implementation of the image/images after consulting the idea with the teacher.

#### Elective seminar 2

**title: Primary and secondary colors and painting without color**

moderator: dr Radosław Jan Balcerzak

duration: 30 hours

Approximation of the meaning of primary and secondary colors in the full-scale use of color, as opposed to achromatic and monochromatic colors, which are a specific form of a limited color palette based mainly on different color saturation. As part of the course, there is also the possibility of independent implementation of the image/images after consulting the idea with the teacher.
